DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/15/2008 has been entered.

Allowable Subject Matter

2. Claims 1-2, 4-13 and 15-22 are allowed.

Applicant has amended claims 1 and 12 by changing the transitional phrase "comprising" to "consisting essentially of." The transitional phrase "consisting essentially of" limits the scope of a claim to the specified materials or steps "and those that do not materially affect the basic and novel characteristic(s)" of the claimed invention. *In re Herz*, 537 F.2d 549, 551-52, 190 USPQ 461, 463 (CCPA 1976). If an applicant contends that additional steps or materials in the prior art are excluded by the recitation of "consisting essentially of," applicant has the burden of showing that the introduction of additional steps or components would materially change the characteristics of applicant's invention. *In re De Lejarte*, 337 F.2d 870, 143 USPQ 256 (CCPA 1964). Applicant has met this burden by correctly arguing that the combination of Yang, Holloway and Novotny, as applied to claims 1 and 12 in the office action dated 2/15/2008 teaches a combined method which produces a stable and reproducible electro-osmotic flow. Applicant's invention, on the other hand, as evidenced both by claims 1 and 12, as well as applicant's specification on, e.g., p. 12, teaches a method of modifying a glass substrate which restrains the occurrence of an electro-osmotic flow. Therefore, the extra steps in the combined method of Yang, Holloway and Novotny do not materially affect the basic and novel characteristic of applicant's claims and do not fairly teach or suggest claims 1 and 12 of applicant's invention. Claims 2, 4-11, 13 and 15-22 are also allowed as they are dependent on allowable claims.
